Front-end Developer Intern

Final-year student seeking an internship opportunity to apply academic knowledge and fulfill graduation requirements. After completing my degree, I aim to become a Frontend Developer, leveraging current skills in HTML/CSS, JavaScript, React, and Tailwind CSS to build high-quality web products. At the same time, I am committed to continuous learning, expanding into TypeScript, Next.js, and emerging technologies to keep pace with industry trends and deliver value to both myself and the company. I aspire to establish a long-term commitment if the collaboration proves successful, creating mutual benefits for both sides.

EDUCATION

Software Engineer   09/2022 - 12/2026

Nguyen Tat Thanh University – NTT Institute of International Education (NIIE) • GPA: 3.21 - 4.0

Expected Graduation: December 2026

CERTIFICATIONS

Gemini Certified Educator   12/2025 - Present

Google for Education

Gemini Certified University Student   12/2025 - Present

Google

Microsoft Office Specialist – Associate (Office 2019)   11/2025 - Present

Microsoft

N.E.P Program Certificate - NTT Institute of International Education (NIIE)   10/2024

NTT Institute of International Education - NTT (N.E.P English Proficiency Certificate Level 4/6)

AWARDS & SCHOLARSHIPS

Academic Encouragement Scholarship – Good Level (Academic Year 2023–2024)   01/2024

Nguyen Tat Thanh University

PROJECTS

PhongNguyen E-commerce   10/2025 - 01/2026

Link: https://github.com/PhongNguyenKobe/e-commerce-ui

- Position: Front-end Developer (Individual Project)

- Developed the user interface for an e-commerce platform consisting of two independents Next.js applications: Client Application: product search, SEO optimization, shopping cart, VNPay payment integration, fully responsive design. Admin Dashboard: CRUD operations for products, users, and orders; form validation; data visualization with charts; dark/light mode support.

PhongNguyenPuppy   08/2025 - 12/2025

Link: https://github.com/PhongNguyenKobe/PhongNguyenPuppyShop-MVC

- Position: Full-Stack Developer (Individual Project)

- Admin Panel: product, category, and supplier management; voucher management; sales statistics; product image upload; advanced search, filtering, and sorting; email sending; purchase history tracking.

- User Application: shopping cart; checkout with COD, PayPal, and VNPay; invoice generation; user authentication (registration/login, password reset via email token); integrated live chat using third-party services (Talkto, Facebook).

- Technology Stack: Responsive UI built with Bootstrap 5.

PhongCar   06/2025 - 06/2025

Link: https://github.com/PhongNguyenKobe/Responsive-Car-website-PhongCar

- Position: Front-end Developer (Individual Project)

- Integrated an introductory video in the "About" section to enhance visual appeal and user engagement.

- Implemented smooth scrolling effects between sections, creating a dynamic and interactive user experience.

- Applied a Mobile-First design approach, later optimized for desktop to ensure cross-device compatibility.

- Built a responsive interface with optimized components such as banners, product listings, navigation bar, and search bar for multiple screen sizes.

VOLUNTEERING

Google Developer Student Clubs (GDSC) – Nguyen Tat Thanh University   08/2023 - 08/2024

Member

- Participated in Google technology workshops and hands-on events to enhance practical skills.

- Collaborated with fellow members on technology projects and hackathons.

- Attended GDSC bootcamps to gain deeper knowledge and experience in software development.

SKILLS

Technical Skills

- Basic Design Patterns
- Basic Figma
- Git/ GitHub - Intermediate
- GitHub (13 public repos)
- HTML/CSS - Intermediate
- JavaScript - Intermediate
- Next.js - Basic
- OOP - Basic
