EXPERIENCE

PhongNguyen E-commerce   10/2025 - 01/2026

Link: https://github.com/PhongNguyenKobe/e-commerce-ui

- Position: Front-end Developer (Individual Project)

- Developed a modern e-commerce platform with Next.js, React, TypeScript, and Tailwind CSS. Achieved Lighthouse scores above 90 for Performance and SEO, integrated VNPay payments, real-time cart management, and built an Admin Dashboard with full CRUD and analytics. Designed a responsive UI with dark/light mode using Shadcn/UI and Radix UI.

PhongNguyenPuppy   08/2025 - 12/2025

Link: https://github.com/PhongNguyenKobe/PhongNguyenPuppyShop-MVC

- Position: Full-Stack Developer (Individual Project)

- Integrated 4 payment methods (COD, PayPal, VNPay, e-invoice) to ensure fast and secure order processing.

- Applied token-based email authentication, guaranteeing security for 100% of registered users.

- Optimized SEO and performance, achieving 100 Lighthouse SEO score and 90+ performance score, fully compliant with Google mobile standards.

- Connected 5 third-party services (MailChimp, Gmail SMTP, GHN, PayPal, VNPay) to enhance user experience and streamline operations.

- Built a responsive interface, clearly separating Admin and User areas, using Bootstrap 5, jQuery, and ASP.NET Core MVC (.NET 9).

PhongCar   06/2025 - 06/2025

Link: https://github.com/PhongNguyenKobe/Responsive-Car-website-PhongCar

- Position: Front-end Developer (Individual Project)

- Developed a responsive car showcase website using HTML, CSS, and JavaScript without relying on external frameworks like Bootstrap

- Embedded video in the About section to enhance storytelling and user engagement.

- Implemented smooth scrolling effects for seamless navigation across different sections.

- Applied Mobile-First design approach, then optimized for desktop, ensuring consistent performance across all screen sizes.

- Achieved full compatibility with mobile devices, delivering a modern interface and excellent user experience.

VOLUNTEERING

Google Developer Student Clubs (GDSC) – Nguyen Tat Thanh University   08/2023 - 08/2024

Member

- Participated in Google technology workshops and hands-on events to enhance practical skills.

- Attended GDSC bootcamps to gain deeper knowledge and experience in software development.

- Collaborated with fellow members on learning projects and group activities using Agile practices.
